**Title of Regulation:**

**Regulation No.:**

**43-300**

**ACCREDITATION CRITERIA**

**Effective Date:**

July 1980

**Constitutional and Statutory Provisions:**

Section 59-5-60. General powers of [State] Board.  
Code of Laws of South Carolina, 1976.

**Descriptor Code:** MK

**State Board Regulation:**

Accreditation Criteria

Each school district shall provide a defined minimum educational program approved by the State Board of Education that complies with standards prescribed for the boards of trustees; district operations; elementary and middle grades; secondary grades; area vocational centers; and adult education. If a school district's educational program is evaluated as failing to comply with prescribed standards, it shall be considered as offering a program that is deficient in meeting local educational needs and such failure shall be indicated in the status of the accreditation classification.

State Board of Educational Approval Procedures: A school district shall obtain approval for its educational program to be accredited by the Board by one of the following procedures.

1. Meet the criteria prescribed by the Board in the "Defined Minimum Program for South Carolina School Districts."
2. Submit a contract to the State Board of Education for approval of variations from the prescribed defined minimum program. The criteria for approval by contract shall be based on the school district's commitment to comprehensive, continuous, long-range planning and effective utilization of resources for planned improvement of identified educational needs. Approval of contract provides for the development and implementation of an action plan to establish performance criteria that include the following:
  - a. Identification of students' educational needs by local assessment.
  - b. Establishment of measurable objectives for improving identified educational needs.
  - c. Formulation of strategies or activities for achieving specific objectives.
  - d. Evaluation procedures for determining success in achieving objectives.

Note: Application forms for accreditation by contract will be supplied by the State Department of Education.

Accreditation Procedures: Each school district shall apply for accreditation to the State Department of Education, on or before October 15, as follows:

1. Data, assurances, and annual needs assessment with a written plan for educational improvement for boards of trustees; district operations; elementary, middle, and secondary grades; and area vocational centers will be submitted to the Chief Supervisor, Accreditation and Educational Improvement Section.
2. Data and assurances for adult education will be submitted to the Office of Adult Education. The Basic Educational Data System computer will scan the data and print a listing of deficiencies classified into seven main areas: (1) Boards of Trustees, (2) District Operations, (3) Elementary and Middle Grades, (4) Secondary Grades, (5) Summer School Programs, (6) Area Vocational Centers, and (7) Adult Education. The computer listings of deficiencies will be reviewed by State Department of Education staff and printouts of the preliminary analysis indicating existing deficiencies will be returned to districts and schools. The preliminary analysis will list one of the following accreditation classifications.

All Clear	indicates that a district meets the standards prescribed by the State Board of Education for a defined minimum program.
Advised	indicates that a district is not meeting all prescribed standards but the deficiencies may be easily corrected and/or substantial progress has been made in removing existing deficiencies.
Warned	indicates that a district's educational program is failing to meet one or more of the accreditation standards. Districts that have a <b>Warned</b> accreditation classification are required to make substantial progress toward removal of deficiencies before submitting accreditation data the subsequent school year or the district's accreditation will be placed on <b>Probation</b> . In the case of serious deficiencies, districts with <b>Warned</b> classifications that fail to make substantial progress toward removal of the deficiencies may be dropped by action of the State Board of Education.
Probation	indicates that serious deficiencies exist and the district will lose its accreditation unless satisfactory progress is made toward the removal of the deficiencies before the next school year.
Dropped	indicates that the district's educational program has experienced serious problems in meeting prescribed standards for a defined minimum educational program for one or more school years, or that the program is deficient in meeting accreditation standards to such an extent that it does not merit accreditation. If the accreditation of a high school is dropped, that school cannot issue State high school diplomas subsequent to the school year in which the accreditation is dropped. Schools which have been classified as <b>Dropped</b> by the defined minimum program accreditation procedures shall not be eligible for funding in the following fiscal year until an acceptable plan to eliminate the deficiencies is submitted and approved by the State Board of Education.

Each school district is required to reply to the preliminary analysis in writing, no later than February 15, indicating plans to effect the removal of deficiencies.

Accreditation classification for schools that operate quarter or semester programs will be determined by the school's ability to correct deficiencies during each instructional period.

The district's accreditation classification and numerical designation for each school year will be determined by its ability to meet standards prescribed for (1) Boards of Trustees, (2) District Operations, (3) Elementary and Middle Grades, (4) Secondary Grades, (5) Summer School Programs, (6) Area Vocational Centers, and (7) Adult Education.

The district's accreditation classification will be the total of the numerical designations of all schools and areas divided by the number of schools and areas in the district. The district's accreditation classification will be indicated by the following numerical designation:

All Clear	4.00
Advised	3.00-3.99
Warned	2.00-2.99
Probation	1.00-1.99
Dropped	0.00-0.99

A copy of the final accreditation classification report will be mailed to county and district superintendents, school principals, directors of area vocational centers, and members of the boards of trustees.

**Additional Requirement for Vocational Education:**

In addition to the policies of the State Board of Education, programs under the jurisdiction of other state accrediting, certifying, or licensing boards shall meet requirements established by these boards.

The South Carolina Department of Education does not discriminate on the basis of race, color, national origin, sex, or disability in admission to, treatment in, or employment in its programs and activities. Inquiries regarding the nondiscrimination policies should be made to the director of the Office of Human Resources, 1429 Senate Street, Columbia, South Carolina 29201, 803-734-8505.
